---

## **Excursões**

Dependendo da idade dos estudantes, as excursões são na Suíça ou na Itália. Lugares como Milão, Lago de Como, Verona, e Luzern.

Oportunidades para viagens incluem excursões de meio dia às quartas-feiras e domingos, viagens de um dia aos Sábados. Há viagens opcionais (custo extra) de fim de semana prolongados para cidades europeias como Nice, Veneza e Roma.

Nossa localização oferece fácil acesso a uma variedade de paisagens e regiões da Europa central, dos lagos italianos para os Alpes suíços e para a costa do Mediterrâneo. Mais estudantes que gostam de aventura podem participar de nossas viagens de aventura, incluindo caminhadas, espeleologia, canoagem, rafting e caminhadas sobre a geleira.

---

## **General Information**

### **Study**

The TASIS Summer Program offers language courses in English as an Additional Language (EAL), EAL Academic Writing, Intensive French, and Intensive Italian, all with special language-based activities built into the program. Our courses emphasize spoken fluency and provide opportunities for students to practice the language they are learning in a variety of situations. In 2015, we added an International Baccalaureate (IB) Preparation Course that introduces students to the curriculum's requirements and assessment style.

Our Visual Arts courses in Digital Photography, Architecture & Design, and Fashion & Textile Design engage students in the classroom, on campus, and during off-campus excursions in which students pursue their subject firsthand. Taught by professionals renowned in their fields, the courses are enhanced by frequent field trips and evening study halls.

This summer we are adding a Culinary Arts course, La Cucina Italiana, that will provide students an introduction to the delectable world of Italian cooking. Led by talented guest chefs, this course will teach students the fundamentals of creating delicious Italian meals.

## Play

Afternoons and evenings are spent participating in a variety of activities, including sports, outdoor adventures, musical theater, and cultural excursions.

Sports and outdoor activities typically include tennis, volleyball, yoga, swimming, CrossFit, sailing, hiking, and windsurfing. Students may also participate in the AC Milan Junior Soccer Camp or the Armani Junior Basketball Club at an extra cost.

The Musical Theater course is run by a Dedicated Performing Arts Team (DPAT) and meets two afternoons a week to rehearse and choreograph an original musical, which is performed during the Summer Arts Festival at the end of the session.

Evening social time offers students the opportunity to practice the languages they are learning and to appreciate the multicultural and multilingual experience of the program. Students spend the evening hours playing recreational sports, relaxing in the student common room, or having a gelato or pizza at the School's snack bar. They can also attend special artisan workshops, challenge the staff in ping-pong or volleyball, or practice their acts for the talent show.

## Explore

Our travel program introduces students to some of the most exciting destinations in Europe. Opportunities for travel include half-day excursions on Wednesdays and Sundays, full-day trips on Saturdays, and optional extended weekend trips to cities such as Nice, Venice, and Rome. Our location offers easy access to a variety of landscapes and regions in central Europe, from the Italian lakes to the Swiss Alps to the Mediterranean coast. More adventurous students can join one of our

adventure travel trips, including hiking, caving, canyoning, river rafting, and glacier walking.

## **Language Courses**

### **English as an Additional Language (EAL)**

TSP offers an exceptional opportunity for English learners to improve their language skills. As the program's main language is English, language skills are reinforced by daily interaction with friends and staff. Courses cater to all levels, and more advanced levels offer students the opportunity to engage with literary analysis as well as formal writing opportunities.

### **EAL Academic Writing**

*First session only; advanced English required*

This course is intended for students who wish to improve their academic writing skills. Students must place into the highest levels of our EAL program to enroll in this course. They practice the various forms of writing that is expected in EAL programs at quality international schools. They learn how to structure and write essays, comparison/contrast papers, research papers, and persuasive texts. Students use critical thinking skills to create a portfolio of work that will enhance school applications.

### **Intensive Italian**

*First session only*

Lugano, in Italian-speaking Switzerland, is the perfect location for students interested in studying the Italian language and culture. Many of our staff speak Italian and encourage students to use the language outside the classroom. Excursions in the local area and further afield offer students the opportunity to practice in authentic language situations.

### **Intensive French**

The TSP French program offers an intensive environment for students who want to improve their language skills and learn about Francophone countries. Experienced teachers encourage students to use French outside the classroom. An optional weekend excursion to the Côte-d'Azur gives students the opportunity to practice their skills.

## Language-Based Activities (for language learners only)

TSP offers dance, drama, photography, and studio art courses. Taught by creative professionals, these classes are challenging and fun and allow students to try something new or develop their talents. Each language student takes one of these activity courses as part of their language program. Language students also engage in singing in their language of study.

## Visual Arts Courses

### Digital Photography

Taught by an experienced and creative photographer, this course introduces students to the basics of digital photography, including camera skills and image-editing software. The picturesque surroundings of the campus and excursions to nearby towns give students the opportunity to practice their skills. Digital SLR cameras are required.

### Architecture & Design

*First session only; intermediate English required*

A unique course created by Master Teacher Mark Aeschliman, Architecture & Design introduces students to these exciting disciplines. Students are introduced to the history of art and architecture from Classical to 19th Century, then Art Nouveau to the present, which includes sketching from slides and discussion. Practical work includes maintaining an investigation workbook, delivering a class presentation, and creating several models that are exhibited at the Summer Arts Festival during the final week of the program.

Architecture & Design students are required to attend a weekend trip to Basel, Ronchamps in France, and Weil-am-Rhein in Germany to explore the renowned Vitra Design Museum. They also take a short day trip to Riva San Vitale in Switzerland.

The course makes use of the School's purpose-built architecture studio located in the Şahenk Fine Arts Center. Please note that this course has an additional cost to cover field trips and supplies.

## Fashion & Textile Design

*Second session only; intermediate English required*

This course offers students a fascinating introduction to the world of fashion and textile design. Students experience the entire creative process, from brainstorming ideas to product development, and design their own collection throughout the session.

Theoretical elements include studying the history of fashion and textiles, learning about the various properties of fabrics, and understanding printing techniques. Students also study marketing, branding, and identity; the planning and timing of a collection; visual perception and color psychology; anticipating trends; and how clothing fits into various societies.

Practical elements include sketching clothing and drawing patterns. Students combine their theoretical knowledge with their own vision to create a collection through target research, mood boards, fabric selection, and design.

Class trips include visiting VF International and the headquarters of North Face, touring the Ratti textile and printing factory in Como, and exploring the Museo del Costume Palazzo Morando in Milan.

## Supplementary Courses

### International Baccalaureate (IB) Preparation Course

*Second session only; advanced English required*

This course offers an overview of the IB Program and introduces students to the curriculum requirements and assessment style. It focuses on the Program's core components: Theory of Knowledge (TOK), the Extended Essay (EE), and Creativity, Activity, Service (CAS). Through a combination of classroom sessions, individual practice, and study periods, students develop academic skills to prepare them for individual research, presentation, and academic writing.

Students learn and practice in-depth research skills, including how to identify and evaluate various sources. They develop critical thinking skills as they write a short

research essay. Public speaking and presentations are also important components of this course. Students learn goal-setting, reflection, time management, and study skills. This course is intended for students who are planning to start the IB Diploma in September 2016 or 2017. The IB Diploma Program is rigorous and requires proficiency in English. Therefore, non-native English speakers will be assessed upon arrival and must place into our highest levels of EAL in order to continue with the course.

## La Cucina Italiana

*Second session only*

New for 2016, this course gives students an introduction to the delectable world of Italian cooking. Taught by talented guest chefs, this course teaches students the fundamentals of creating delicious Italian meals. Students learn Italian cooking and shopping vocabulary, practicing at nearby food markets and while touring cheese and meat factories. They also learn knife skills and serving and dining etiquette. The students create an original menu to share with their peers at the end of the session.

## Sports

### AC Milan Junior Camp

TSP students have the exceptional opportunity to work under coaches from the renowned AC Milan Club through the AC Milan Junior Camp. Students spend three afternoons per week working with professional trainers on their skills. Players are issued an exclusive AC Milan soccer kit. Participation is at an extra cost.

### Armani Junior Basketball Club

The Armani Junior Basketball Club challenges players by focusing on tactical, sophisticated methods of play. Coaches from the Olimpia Milan Armani Junior Program focus on physical strength and the elements of fitness necessary to improve player confidence and performance. Players are issued an exclusive basketball kit. The club meets twice a week and participation is at an extra cost.

### Students in Language Courses

- 08:15-09:00 Breakfast
- 09:20-09:30 Morning Meeting
- 09:35-14:40 Selected course of study, with a break for lunch.
- 14:45-18:00 Afternoon sports, arts, and/or excursions
- 18:25-19:15 Dinner
- 19:30-19:40 Evening meeting
- 19:40-22:00 Evening activities, free time
- 22:00 Return to dorms, check in
- 23:00 Lights Out

### Students in Visual Arts and Supplementary Courses

- 08:15-09:00 Breakfast
